intro

THANK YOU POST- THINKER, HAPPY READING

Congratulations on your purchase of our portable E-Ink display! This user manual provides you with instructions on how to operate your new device.

Ines: I'm a huge admirer of Zirbel pine wood for its pleasant, soft scent, cozy ambiance, and health-boosting features.

Max: It's truly remarkable that we can offer this fantastic product to you. Personally, I began using physical, non-light-emitting displays for task management during the pandemic. With excessive screen time and holding my smartphone, I experienced a lack of concentration, minor burnouts, bad sleep and mental pressure.

KICKSTARTER

wood chips, scent-bag, eMinder

Skip this page if you want to get to the quick start guide.

Safety precautions:

- Read this user manual carefully before using the display.
- Do not expose the device to water or other liquids.
- Do not expose the display to strong magnetic or electrical fields.
- Do not use the display near flammable gases or liquids.
- Do not drop the display.
- Do not expose the device to extreme temperatures or humidity.
- Do not bend the display.
- Make sure that the display is not bent or damaged.

Care and Maintenance:

- Clean the device with a soft, dry cloth.
- Do not use any abrasive or corrosive cleaning agents.

If you encounter any problems or have any questions about the device, please contact us via our website or email.

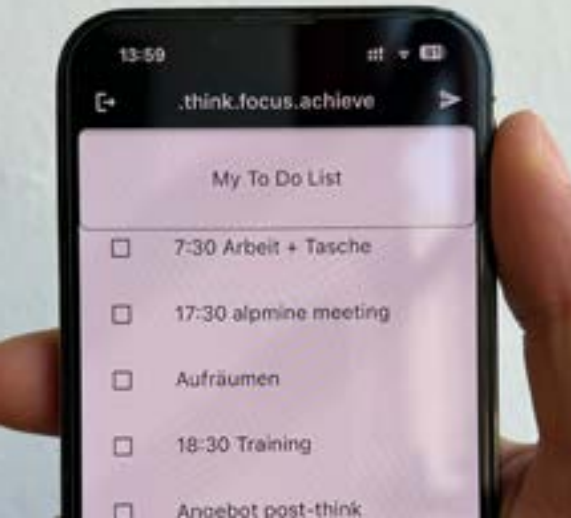

the eMinder

and how to use it

- Remove the device from the packaging.
- Place the device on a flat and stable surface.
- Open the post-think app. Send your tasks (also images or plain text) via the app to the display.
- To turn on the device, simply place your smartphone onto the display.
- The NFC field will power the device and transmit the data.
- Never take off the smartphone during this process and wait till the display shows you desired data.
- To turn off the device, remove the smartphone from the display.

Quick Guide:

Choose your to do list or an image from you phone and tap on the sending button in the top right corner in the app.

To turn on the device, simply place your smartphone onto the display. The exact placement position is shown on the page before.

Disposal

Instead of throwing away your eMinder, consider sending it back to us! We'll even cover the shipping costs and repurpose it into a fantastic new post-think product.

our quality

is our network. Quality förster we say! No, for real ... thanks to our outstanding business partners and strong connections to the craftsman industry, we were able to bring this incredible and avant-garde project to life. We extend a big thank you to our partners, backers and supporters, who not only shared their expertise with us but also provided us with access to facilities, tools, and resources that were vital to our success.
